

# Much more than just a boat

**A**USTRALIA'S finest sports cruisers are now here in Western Australia. Sunrunner boasts an extensive range of luxury cruisers that are available from our new Mandurah store at the Dolphin Quays Marina.

With a choice of seven different models ranging from 28 feet to 48 feet, you can be sure we have something to suit your needs.

Sunrunner cruisers offer excellent sea going performance and an extremely dry ride, delivering exceptional performance on the water.

We pride ourselves on the unique four part construction process which is followed to manufacture every one of our boats from our factory in the Gold Coast.

Everything on our boats is constructed under one roof – from the engineering brilliance of the hull to the lavish and decadent interior below the deck.

Aside from all the great features and benefits the range can offer you, we believe our products deliver beyond the boat.

Men love the ride and the versatility,

women love the finish and the style and children love the fun.

A real sports cruiser, a great family experience, an ideal fishing trip, the perfect escape.

Whatever you'll use your Sunrunner for, we know you'll agree the real value is much more than a boat.

For all enquiries, please call Geoff 'Swampy' Marsh or Michael Harris on 9583 5954.
